Dan Guenther has been a farmer and farm consultant for 20 years. He helped create CSA's in the Hudson Valley including Brook Farm Project and Phillis Bridge Farm. He and his wife, Ann, have actively been educating the people on climate change and offering alternatives to energy consumption through education. They co-founded New Paltz Climate Action Coalition. Their work involves community outreach and SUNY New Paltz interns to reduce climate change effects and carbon footprint.

Food Not Bombs is part of the De Facto Community Center project which is a local movement to sustainability and social outreach through community events and membership. This group of advocates for real change with hands on support for food security, farms, local businesses and artisans.

Lion Zen plays a blend of rock and blues which they refer to as Playing Groove Rock ((**Psychedelic Country Blues**)) Come on out and "Get your Groove On" with this newly formed band.

Special thanks to Davy from Heady Teddy for helping us out with tents and getting us in touch with Lion Zen. YOU ROCK!

Build Smarter. Live Better.

Fourth Annual Zero Waste Day

Kniffen Homes has been working at the forefront of the green building revolution. We have been recognized by NYSERDA and the NAHB Research Center for our leadership in green construction.

Our desire to build green comes from our commitment to care for our community, our planet and our future. Our work has been instrumental in developing industry standards for green construction. We incorporate materials, equipment and construction techniques that reduce environmental impacts and increase energy efficiency.

We have been building for over 150 years. With an intimate understanding of building science, we have the experience and talent to tackle any project - from design to completion. We strive to exceed your expectations of craftsmanship, material selection and management of your project.
